Dual Connectors

Lightning connector for iOS devices and a USB 3.2 Type-A connector for PC & Mac laptops and desktop computers³

DUO LINK iOS USB 3.2 DUAL FLASH DRIVE

The PNY DUO LINK iOS USB 3.2 Dual Flash Drive bridges the gap between mobile and desktop, making it the ideal mobile storage solution for file management on-the-go. DUO LINK is the perfect tool to free up space on iOS equipped mobile devices by allowing users to move content such as photos, videos, music, and more from their iPhones and iPads to the drive, making room for more, and ensuring they will never miss an opportunity to capture content due to lack of memory. What's more, the DUO LINK Dual Flash Drive allows for the transfer of content to full size devices such as laptop and desktop computers for permanent storage. From there, users can take their content to the next level and create videos, social posts, process prints, or simply save their files on a more permanent storage device. The free DUO LINK 4 app allows users to stream their favorite movies or music as well as back up contacts, directly from DUO LINK, no WiFi needed. The DUO Link iOS USB 3.2 Dual Flash Drive is ideal for use across operating systems and host devices. With a Lightning connector for iOS mobile devices and a USB 3.2 Type-A connector for PC & Mac laptop and desktop computers for wide range compatibility, the potential for content creation and file management is near limitless.

Warranty	1 Year Limited Warranty

PRODUCT INFORMATION

PNY Part Number	64GB: P-FDI64GDULINKLGT-GE 128GB: P-FDI128DULINKLGT-GE 256GB: P-FDI256DULINKLGT-GE
-----------------	--

1. For Flash Media Devices, 1 megabyte = 1 million bytes; 1 gigabyte = 1 billion bytes. Actual useable capacity may vary. Some of the listed capacity is used for formatting and other functions, and thus is not available for data storage.
2. Speed quoted for USB 3.2 Gen 1/USB 3.0 devices. Write speed may be lower. Speed is based on PNY standard USB 2.0 (3MB/s) write speed. Performs at USB 2.0 speeds when used with 2.0 devices.
3. Mobile device with OTG (On-The-Go) support required.
4. The free DUO LINK 4 app must be downloaded from the App Store prior to use. Use of the Made for Apple badge means that an accessory has been designed to connect specifically to the Apple product(s) identified in the badge and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with an Apple product may affect wireless performance.
