CP-URC-DC24PL3C-L-V2

2.4MP Dual Light Dome Camera - 30Mtr.

Functions

True Day/Night (ICR)

When the scene is too dark, the image is captured by illuminating an infrared light through the camera onto the scene that greatly helps with making the scene visible for the lens. It delivers color images during the day and automatically switches to the monochrome feature as the scene darkens.

Active Deterrence

Active deterrence includes turning on warm LED lights towards intruders in real-time, enhancing security by preventing potential threats before they escalate.

*Deterrence will only work with SMD supported DVRs

Long Distance Transmission

Long-distance transmission capability allows video signals to be transmitted over extended distances without quality loss, ensuring reliable and clear footage from remote locations.

All-in-1 HD Camera (HDCVI, HDTVI, AHD, CBVS)

This feature supports multiple video formats—HDCVI, HDTVI, AHD, and CBVS—making the camera versatile and compatible with various DVRs for seamless integration.

Built-in Mic

The built-in microphone captures high-quality audio, adding an extra layer of security by recording sound along with video, which is essential for comprehensive surveillance.
